Cynthia Bendle

Photographic images by Cynthia Bendle-Dombroski are fun, fresh and unforgettable. Her flexible and easy-going approach puts all of her subjects at ease and through her lens, she confidently captures magical moments in time. She is equally at home in the studio, out on location, or anywhere special events happen. She captures the drama, the dreamy looks, and the unexpected images – those candid shots that everyone loves. Weddings, newborns, children and expecting parents - all clients are treated with the same professionalism, creativity and good humour. If you are looking for a non-traditional record of these special times, then Cynthia is the right match for you. Seeing beauty in all things and wishing to follow her inner passion, Cynthia confidently moved on from a 10-year career as a highly successful financial businessperson to follow her dreams of becoming a professional photographer. Her work today combines her natural talent for photography with a degree in Visual Arts from the University of Western Ontario. Since launching her own studio, she brings her vision and artistic flair to a wide range of client projects and to her many other interests, which include painting, drawing, creative writing, and family.
